GUIDELINES AND INSTRUCTION REGARDING COMPOUNDING OF FOREST OFFENCE CASES UNDER 68 OF IFA.

(Authoritative English Text of the Department Notification No. FFE-B-A (3)-3/2010 dated 05/05/2010 as required under article 348 (3) of the Constitution of India)

Government of Himachal Pradesh
Forest Department

NOTIFICATION

FFE-B-A (3)-3/2010

Dated 05-05-2010

In exercise of the powers conferred by Section 68 of the Indian Forest Act, 1927 read with directions issued by the Hon'ble High Court of Himachal Pradesh vide its judgment dated 28.08.2009 in COPC No.56/2009, titled as Kuldip Singh Chauhan Vs. Balbir Singh and others and in suppression of all the previous guidelines issued on the subject, the Governor, Himachal Pradesh is pleased to empower all the Range Officers- in-charge of the ranges to compound forest offences and to accept compensation and /or release the seized property as mentioned in the aforesaid section. The regulation of the compounding of forest offences, disposal of the cases of illicit felling and other forest offences shall be as under:-

1. Cases not liable to compounded:

The following are the cases which shall not be compounded namely:-

- i) Illicit transport of resin, timber, katha and bamboos irrespective of magnitude of offence;
- ii) Cases of habitual offenders i.e. an offender who commits more than one offence during the year;
- iii) Illicit encroachment of forest land;
- iv) Where an individual/right holder/saw miller is in possession of unaccounted timber, resin, katha for which satisfactory proof of procurement is not given by him;
- v) Where value of forest produce is more than rupees two lacs;
- vi) Illegal establishment of depot and illegal running of saw mills;
- vii) Deliberate causing of forest fire;
- viii) Illegal purchase and sale of timber;
- ix) Cases under Section 62 and 63 of the Indian Forest Act, 1927;
- x) Cases of shifting/uprooting/intentionally damaging the forest boundary pillars;
- xi) Defacing of hammer marks; and
- xii) Infringement on the stipulations imposed by Government of India while granting permission under Forest Conservation Act, 1980 and rules framed there under.

2. Cases which may be compounded:-

(1) Forest offences cases of right holders in the following circumstances can be compounded:-

- (a) Where illicit felling of trees has been done to meet the bonafide domestic requirements and the offence is petty in nature.
Note:- The expression 'petty offences' in relation to illicit felling shall mean the offence where the amount involved is less than rupees two lakh. For determining that the offence is for bonafide domestic use, it must be established during investigation that timber has actually been used for domestic purpose only.
- (b) No case of petty forest offences involving illicit felling shall be compounded until an enquiry and investigation is held by an officer not below the range Forest Ranger.
- (c) Weak cases lacking in evidence and subsequently rendered un-fit for Challan shall be compounded after examination by Divisional Forest Officer, on advice of concerned District Attorney. Where there is difference of opinion between the Divisional Forest Officer and District Attorney, the Conservator of Forests thereon shall be final.

(2) All forest offence cases relating to illicit lopping against the regulatory provisions/rules by right holders either for the purpose of fodder or fuel shall be compounded and taken to courts only if the accused refuses to compound the same.

(3) Cases relating to illicit grazing shall be compounded and be taken to courts only if the offender refuses to compound.

(4) No case of violation of provisions of H.P. Land Preservation Act, 1978 shall be compounded except, where no element of trade is involved and unauthorized felling of trees from private land is for bonafide domestic use and involves not more five trees than the limit specified under the Act *ibid*.

(5) In all cases to be compounded under Indian Forest Act, 1927, ***in addition to the acceptance of compensation as per provisions of the said Act, the case property shall not be released after charging value thereof at the market rate.***

(6) In cases to be compounded under Himachal Pradesh Land Preservation Act, 1978 only compensation for the forest offence shall be charged and no value for release or property be charged.

(7) In the under mentioned cases double rates shall be charged both for compensation and release of property.

- (i) Where offence is committed before sun rise or after sun set;
- (ii) Where offence committed in reserve forest;
- (iii) Where resistance is offered at the time of detection of offence;
- (iv) Where compounding of offence is done with the permission of the court where the matter is pending for adjudication;
- (v) Unauthorized uprooting of stumps of all species and;
- (vi) Offence committed in plantation or regeneration area.

(8) Forest Offences relating to unavoidable damages caused by the companies or corporate Bodies shall be compounded after ascertaining by an officer not below the rank of Divisional Forest Officer, that the damage is unavoidable.

(9) Forest Offences relating to avoidable damages up to 2 lacs caused by the Companies or Corporate Bodies shall be compounded after realizing value of the forest produce and compensation at the double rates.

Explanation: - 1. 'Avoidable damage' means the damage which can be avoided by taking reasonable humanly or mechanical precaution.

2. 'Unavoidable damage' means the damage which cannot be avoided even by taking reasonable humanly or mechanical precaution.

Subject: - Clarification on Notification No. FFE-(B) A (3)-3/2010 dated 05.05.2010 regarding compounding of forest offences.

Memo:

President, Range Forest Officers Association has sought clarification through e-mail regarding Notification dated 05-05-2010 relating to compounding of forest offence cases on the following points:-

- i) Whether as per new notification RFOs have been delegated powers to sanction forest offence cases?
- ii) Whether BOs will collect compensation from offenders as per past practice?

2. In this regard, attention is invited to the opening para of the Notification dated 05.05.2010 vide which Range Officers in charge of the Ranges have been empowered to compound forest offence cases and to accept the compensation. This is so because under section 68 2(b) only officers not inferior to that of Rangers is empowered to accept compensation.

3. So far as the question of collection of compensation from offenders is concerned, it is clarified that the new rules do not impose any bar in this regard; however, the cases can only be compounded by the RO concerned. You are, requested to proceed with this issue accordingly as per above referred to notification.

4. It has been decided that the amount of compensation and value of seized property above Rs.1000/- (One thousand only) should not be accepted in cash.

COMPENSATION ON ACCOUNT OF LOSS CAUSED HUMAN BEING/ANIMALS
GOVERNMENT OF HIMACHAL PRADESH DEPARTMENT OF FOREST FARMING AND
CONSERVATION FTS. (F) - LOOSE
DATED SHIMLA-2/9-4-1996

NOTIFICATION

Regarding compensation on account of losses caused to animal, human being by wild animals.

In supersession of all previous Notifications regarding compensation for the losses being done to animals and human being by Wild Animals, the Governor Himachal Pradesh is pleased to declare the categories of losses being done by wild animals (as defined in Wild Life Protection, Act, 1972 and the amount of compensation to a person who on application claim relief for himself or the members of his family or dependents or his own cattle as under:-

1. In case of death of human beings Rs. 1, 00,000/-
[Amended vide HP Govt. Notification No. FTS. B (F)-6-7/82-II dated 27/8/2001]
2. In a case of killing of horses/mule (all breeds) Rs. 4,000/-
 by snow leopard in shed.
3. In a case of killing of horses/mule (all breeds) Rs. 2,500/-
 by snow leopard in jungle.
4. In case of permanent disability to human beings. Rs. 1, 00,000/-
[Amended vide HP Govt. Notification No. FTS. B (F)-6-7/82-II dated 27/8/2001]
5. In case of injury to human beings. Rs. 33,000/-
[Amended vide HP Govt. Notification No. FTS. B (F)-6-7/82-II dated 27/8/2001]
6. Loss of buffalo, cow jersey cross ox and mule Rs. 2,500/-
 (adults) (special breed) in cow shed.
7. Loss of buffalo, cow jersey cross ox and mule Rs. 1,500/-
 (Adults) (Special breed) in jungle.
8. Loss of cow (local breed) in cowshed. Rs. 625/-
9. Loss of cow (local breed) in jungle. Rs. 375/-
10. Loss of Ox (local breed) in shed. Rs. 1,250/-
11. Loss of Ox (local breed) in jungle. Rs. 625/-
12. Loss of young one of buffalo, cow (jersey). Rs. 250/-
 Ox and mule (Special breed) in shed.
13. Loss of young one of buffalo, cow (jersey). Rs. 188/-
 Ox and mule (Special breed) in jungle.
14. Loss of young one of buffalo, cow (jersey). Rs. 125/-
 Ox and mule (local breed) in shed as well as
 in jungle. Rs. 375/-
15. Loss of sheep and goat in shed. Rs. 312.50
16. Loss of young ones of sheep and
 Goats in shed. Rs. 400/-
17. Loss of sheep and goat in jungle. Rs. 188/-
[Amended vide HP Govt. Notification No. FTS. B (F)-6-7/82-II dated 27/8/2001]
18. Loss of young ones of sheep and
 Goats in jungle. Rs. 2, 500/-
19. Loss of Yak, horse/mule and camel in Shed: Rs. 2, 500/-
20. Loss of Yak, horse/mule and camel in Jungle. Rs. 1, 250/-
21. Loss of churu/churi in shed. Rs. 625/-
22. Loss of churu/churi in jungle. Rs. 675/-
23. Loss of donkey in shed. Rs. 500/-
24. Loss of donkey in jungle. Rs. 625/-
25. Loss of Pashmina goat in shed. Rs. 375/-
26. Loss of Pashmina goat in jungle. Rs. 250/-
27. Loss of young ones of Yak Horse, Camel
 Churu/churi, donkey pashmina goat in shed.

28. Loss of young ones of Yak Horse, Camel	Rs. 125/-
Churu/churi, donkey pashmina goat in jungle	
29. Pigs in shed.	Rs. 312.50
30. Pigs in jungle.	Rs. 168/-

2. The concerned officers of the Department will release 25% of the amount of compensation prescribed for human losses as interim relief to the family of the deceased/incapacitated persons after due verification in anticipation of formal sanction without delay. The balance amount would be released after completing the formalities as prescribed in this Department Notification of even number dated 9/4/1996. They will submit case of reimbursement of the amount given on account of loss of life/incapacitation/grievous injuries to the Chief Conservator of Forests (Wild Life) who will get it reimbursed from the Government of India.

3. The expenditure on enhanced rates for loss of sheep and goat will be borne by the State Government.

[Amended vide HP Govt. Notification No.
FTS. B (F)-6-7/82-II dated 27/8/2001]

The grant of relief as referred to above will subject to the following conditions:-

- Production of postmortem report in case of loss of human life or injury/disability certificate from the Medical Officer of a Govt. Institution as the case may be.
- The verification of loss that the same was actually caused by Wild Animals will be done by the Pradhan/UP Pradhan of Panchayat/Revenue Lambardar/President notified area Committee/Chairman Municipal Committee/Commissioner, Municipal Corporation of the area/elected member of the Cantonment Board area, and Range Officer/Deputy Ranger, Range Officer or any other forest officer higher in rank than a Range Officer in the Tribal areas and backward areas where the office of Range Officer/Deputy Range Officer/higher in the rank than Range Officer is more than 15 Kms. away from the residence of the applicant, in that case, by the Forest Guard of the area.
- All Divisional Forest Officers in H.P. shall be the final authority to sanction cases of claim on account of losses done by the Wild animals' upto Rs. 2000/- in each case and all Conservator of Forests in H.P./Chief Wild Life Warden shall be the final authority to sanction such cases of relief beyond Rs. 2000/- in each case.**
- All cases of damage done by the Wild Animals should be reported by the applicant to the nearest Range Officer or any officer above, of the Forest Department within five days of the event and claims for relief is filed within a month with Dy. Conservator of Forests/Divisional Forest Officer or any other higher officer of the Forest Department both territorial and Wild Life.
- The relief shall be granted in case of loss of cattle to the owner of the cattle.
- The relief in case of loss of the human being shall be granted in the order of preference given below:-
 - Wife or Husband, as the case may be.
 - Sons, unmarried or divorced daughters and children of predeceased son, (Equal share.)
 - Daughters. (Equal share.)
 - Grand children being children or daughters who died before him (Equal share).
 - Father or mother.
 - Failing all above any other next of kin entitled to a share in their state.
 - Brothers or sisters or children of the deceased brothers (Equal share.)

ANNEXURE -2

Copy of letter No. Fts-(B)-(7)- 16/85-II dated 26th October, 1998 from the Commissioner-cum-Secretary (Fts.) to the Govt. of H.P.

Subject: - Loss caused by the Wild Animals to the Personal Properties of the public-relief thereof.

The matter with regard to grant of relief in favour of the public on account of losses caused by the Wild animals, especially by monkeys has been engaging the attention of the Government for some time past. In this context attention is invited to Section - 11 (1) (a) and (b) of Chapter-III of the Wildlife (Protection) Act, 1927 which provides that Chief Wildlife Warden or the authorized officer is fully empowered to issue the permit to hunt animals which cause damage to human life or public property (including standing crops or any land.)

2. It is, therefore, requested to take further necessary action to issue suitable directions to the concerned officers immediately under intimation to this Department.

MONKEY INCIDENCE ESTIMATION

APPENDIX-XX

Objectives: The monkey count in towns/rural areas with high monkey incidence will answer the following questions

- A. Which town/rural areas are having high monkey incidences (such areas are being called as monkey hot spots) within the state?
- B. Over period of time whether the monkey incidence is rising or decreasing in the hot spots?
- C. This attempt is not to count all the monkeys in the state.
- D. Emphasis on recruitment i.e. young ones is to be given during the one hour count every 6 months.

Methods: A two-step strategy will be implemented for an efficient monkey incidence estimation of the state of Himachal. This would include

1. Preliminary Observations for Monkey Estimation to determine the hot spots.
2. Comprehensive Monkey Estimation in the hot spots.

Instructions for the Field Staff

- i. Every DFO in field (Territorial or Wildlife) is the leader of the Monkey Incidence Estimation.
- ii. Step 1, Preliminary Observations for Monkey Estimation (see Form 1) will be executed in all the forest beats of the state (except Lahul and Spiti where monkeys are not found) to ascertain presence/absence of monkeys.
- iii. In every beat, the forest guard will take cooperation of Notified Area Committee, Panchayats, NGOs, Yuvak or Mahila Mandals to undertake both steps i.e. Preliminary Observations and Comprehensive Monkey Estimation.
- iv. All over HP, the Preliminary Observations will be done in three days time; thereafter, the Comprehensive Monkey Estimation will take only half-an-hour on the same date between 8 and 8.30AM.
- v. One observer can cover a distance of two to three km in half-an-hour between 8 and 8.30 AM. The DFOs will ensure deployment of staff, Panchayat representatives, NGOs and others accordingly. All the observers should know their field positions in at least one day advance so that they are well acquainted with the place or hot spots where they have to count monkeys.

- vi. The beat Guard will be the compiler of the data provided by the observers in his/her beat. Likewise, beat data will be compiled at Range and Division level to further send it to Circle and then to the CCF (FD and PAN) at Shimla.
- vii. DFOs and their ACFs will be in-charge of training of Forest Guards, representatives of Panchayats, NGOs, Yuvak or Mahila Mandals. The training will be conducted at each Division HQ level or any other suitable place to ensure participation of all concerned.
- viii. The Preliminary Observations for Monkey Estimation is seen as an opportunity to bring together the Forest Officials, and Resource Persons such as NGOs, community to respond to the man-primate conflicts.
- ix. Step 2 Comprehensive monkey estimation is the main part of this exercise which will be taken up immediately after the preliminary observations or survey is completed.
- x. The concerned DFOs will facilitate making of sufficient copies of Form 1 and 2 for participating teams in the Monkey estimation.
- xi. The monkey estimation will be biannual feature to be conducted during the month of January/February and August/September, every year.

Step 1: Preliminary Observations for Monkey Estimation to determine Hot Spots (see Form 1)

This forms the primary step of incidence estimation exercise. It necessarily would involve all the forest/wildlife beats of the state. The data will be collected and compiled in the Form No. 1 given as annexure. This form will be filled-up in the field based on monkey troops observations in association with concerned NGOs, and the local people etc. This data collected will form the background to identify the areas of high incidence abundance or hot spots as well as those exhibiting large scale conflicts. All the observations of monkey-infested areas or hot spots will be marked on the maps at the forest beat, forest range and Forest Division levels.

Step2: Comprehensive Monkey Estimations

Based on the preliminary observations, the Monkey Incidence Estimation will be done. In general this Estimation would be carried out in the selected high man-monkey conflict areas (hot spots) obtained from the Preliminary Observations for Monkey Estimation. The aim of this exercise would be to impart training to the concerned personnel, NGOs, community for conducting comprehensive monkey estimation. In general the feedback of this exercise would form a basis for further improvement in methodology and refining of technique of incidence estimation. A data collection sheet given as Form 2 in the annexure will be filled up by all the concerned forest personnel, NGOs, community. The Form 2 will be compiled at the Division level. Simultaneous data plotting on the beat map will be carried out.

The above mentioned two steps will be biannual feature to be conducted during the month of January/February and August/September for the reasons that during months of August/September the parturition of females is nearly over and it will give a better demographic estimation in subsequent surveys. During the month of January/February, the feed availability is low and due to better visibility, better estimation of incidence can be carried out.

The compiled data from this exercise can be used for studying the impact of various conflict resolving methods, like sterilisation, garbage management etc., study of migratory pattern of monkeys, social behaviour of monkeys, group reorganizational behaviour, post-sterilisation behaviour, resolution of man-animal conflict (including crop damage study, direct bite cases etc.), and demographic trends etc.

Methods for Comprehensive Monkey Estimation in the Hot Spots

1. Set up a sufficiently large pilot study in an area, such as a town, a temple complex and surround, or a highway where monkeys are seen regularly. In towns like Shimla, Bilaspur, Hamirpur, Dharamshala, Nahan, Solan, or Mandi it may be very difficult to identify a few vantage points. On the clear trails (such as streets or roads), observers will walk in a given timeframe (20 to 30 minutes) to note the numbers of the monkeys, their location, group size, composition, direction of movement, etc. Care must be taken that the spread of the 'transects' is such that a large area of the town is covered, but there are clear blind areas that separate different 'transects', so that chances of double counts are almost excluded. One observer will cover two to three km area in half-an-hour. **A good time to walk on these designated transects is 8AM anywhere in the state of HP where monkeys are abundantly found. The estimation on the transect will be completed by 8.30AM.**
2. Initially we need to identify different segments in the Core Area (where the monkeys are found in abundance). In these transects or segments, various vantage points will be identified to closely observe the monkeys without interference. If a particular segment is quite big this may be further sub-segmented under a person/forest guard/observer to observe the monkeys from a vantage observation point, in the morning at 8 AM when monkeys come out to forage. This should be ensured that monkey in line-of-sight of the observer are counted and there is no repetition of count of the same monkeys by the other observers.
3. Location and identification of these observation points should be noted/ plotted on a map of the area with number of monkey recorded. Data Sheets will be prepared on the Form 2 given as Appendix. Information regarding age and sex of the monkeys, and food provisioning and garbage disposal at surveyed sites need to be kept.

4. The survey/incidence estimation is to be conducted in such a manner that all the monkeys in every **observer's domain are counted in a period of half an hour (between 8 AM and 8.30 AM)** This may be enhanced to one hour depending on size of the segment. The period of counting is kept 30 minutes (between 8 and 8.30 AM) so that the level of error of number is avoided due to migration of the animals from one observation point to another.
5. The monkey survey is to be conducted by involving various NGOs, professionals and other similar institutions involved with monkeys. Perhaps involvement of Eco-clubs, schools/colleges in the vicinity of identified locations will be also a most desirable component
6. The whole exercise is to be repeated during winter (January/February) and August/September to know variation and error if any.
7. Once the results are obtained, the methodology may be improved and then approved to be replicated in different areas of the state to arrive at a figure of incidence of monkeys.
8. A basic website/blog will be created to have an online access to the information to a wide user/stakeholder groups
9. The lessons from this exercise will be integrated with the standard wild life incidence estimations of the Wildlife Wing of HPFD.

Notes:

- a) Observer's/Forest or Wildlife Guard's familiarity with the terrain and monkeys is the basic assumption/premise of this exercise.
- b) The DFOs will help specify the area to be surveyed by the field staff. The area with monkeys should be demarcated on the map. It can be rectangular or squire strip. For forest/rural incidence it should be larger (approximately 10-15 sq km), whereas for the urban incidence it may be smaller (about 4 sq km). The reason being that forest monkeys live in larger home ranges and the urban monkeys have smaller home ranges.
- c) The Important thing is to identify the group; while counting two things need to be avoided; (a) no repeated count of the same monkey; (b) as far as possible no monkey is left out from counting. In this process even if it takes longer time to count, it does not add error in the counting.
- d) There are chances of error when we do repeated counts, even the observer may miss the entire group on a particular day. If it is enforced, there are chances of fictitious counts. This exercise is primarily for monitoring the monkey incidences. Thus it may be more informative if counts are made at longer intervals, for example three or four times in a year. That may show certain trends in mortality and fatality.
- e) There will be a SPECIAL mention of such areas which are part of monkey incidence estimation; where monkeys have been released after their sterilization.

- f) Those who are well conversant with the Google Earth Images may use them for this purpose.

In order to make the monkey incidence estimation a long term plan, Open source mapping GIS software can and should be used. There is no cost in acquiring the software plus a large number of people can share the same tools and do some good monitoring which is transparent accessible and verifiable.

**Government of Himachal Pradesh,
Department of Forests,**

Dated. 15th

**No.FFE-B-A(10)-1/2005
Dec.2011**

Notification:

In partial modification to this department Notification No Fts (F)6-7/82-Loose, dated 9.4.1996 the Governor of Himachal Pradesh is pleased to order that the condition at Sr. No.III in the said notification shall be read as "All DFOs in HP shall be the final authority to sanction all cases of claims on account of losses done by the wild animals to domestic/pet animals and human beings in each case"

Other terms and conditions will remain the same

By Order

Supripta Roy
Addl. Chief Secretary (Forests) to the
Govt. of Himachal Pradesh

Guidelines to catch and transport monkeys

1. While capturing monkeys it has to be ensured that at least 80% of the troupe is captured. Capturing the monkeys will be done under the supervision of Wildlife/Forest officials. As it has been observed that small number of monkeys is being captured and which is leading to fragmentation of the troupes. As a result there is multi-troupe formation which is aggravating monkey menace.
2. After the capture of monkeys, the integrity of the captured troupes is to be maintained. Monkeys of one troupe should be kept in one independent cage. This will ensure less conflict and injuries among the captured population.
3. A proper record of the monkeys captured from a particular area is to be maintained. A challan is to be prepared (Copy attached) which needs to be signed by the designated/supervising wildlife/forest official and countersigned by a representative Gram Panchayat or local body both while capturing and release of monkeys. This is already in practice of MSC Shimla since the inception of Monkey Sterilization Programme.
4. It has to be ensured that monkeys are transported to be designated Monkey Sterilization Facility at the earliest so that the stress to these animals is minimized.
5. The captured animals are to be fed at least thrice a day and they have to be provided with adequate water frequently.
6. It is mandatory for every capturing party to carry one First Aid Kit. In case some injured monkey is captured or injured subsequently, first aid should be provided and the animal should be segregated immediately.
7. Care should be taken that no infant is separated from its mother.
8. Care should be taken to protect the captured animal from extreme weather.
9. Animals should not be transported late during the night hours or other stressful hours of the day.

Rakh Nalagarh :- The area of DPF Rakh Nalagarh in the jamabandi for the year 1954-55, was 1729.4 Bighas. The area of Rakh Nalagarh is lying under possession of other departments prior to 1980 for the construction of state highway of length approx 4. KMs., Construction of Hospital, schools, college, police station, mini secretariat , o/o IPH, PW department, cremation ground, and the main bazaar of Nalagarh etc. In the Jamabandi for the year 1977-78 the area of Rakh Nalagarh is 1309.19 Bighas which is nearly 98.58 Hactares. Out of the gross area the total area lying under possession with forest department is 98.58 hactares and since this area is just lying in the precincts of the old Nalagarh town and is quite prone to be grabbed by miscreants because of its sky rocketing prices so forest department has installed boundary pillars of rail girder joist and also good amount of area has been fenced by the wire mesh fencing to curb this menace. The trial cases of encroachment on this land are under way with different courts and the detail of such encroachment cases is as per Annexure-XXVII. at page no. 103.
